FRENCH SUMMER SCHOOL 2024

The French as a Foreign Language Summer School is co-organized by Toulouse INP and INSA Toulouse under the Toulouse Tech umbrella.

It is aimed at international students wishing to enroll in an engineering program in France.

Also open to doctoral and post-doctoral students who would like to learn French or improve their French proficiency.

The objective of this intensive course is to strengthen communication skills in French and to allow students to familiarize themselves with French academic methodology and scientific French in order to facilitate their integration as future engineering students in France.

Activities

Cultural and tourist activities: two cultural visits in the Occitan region during your stay (Carcassonne, Albi, ...)

Coaching by a French student from our school (to assist and accompany you during your stay)
